

Key features:

- **Rich stereo sound** – 40mm speakers give rich sound and resonant bass
- **Noise-cancelling microphone** – reduces background noise and ensures crystal clear audio quality
- **Concealed Microphone Boom** – stows completely into the headband when not in use – ideal when listening to music or watching DVD

- **Convenient controls** – inline volume and mute controls give you full control over your listening and speaking experience
- **The microphone boom adjusts** – ideal for placement for improved communications
- **Specially designed ear pods** – redistribute pressure for maximum comfort for the longest gaming sessions

PLANTRONICS GAMECOM® 777

A 5 channel virtual surround sound gaming headset with Dolby® headphone technology

This open-eared headset with Dolby® Headphone technology gives you an unparalleled audio advantage. An integrated USB sound card featuring Dolby technology provides a true 5 channel virtual surround sound experience. If required, an analogue connection is also provided. Specially designed ear pods redistribute pressure for maximum comfort for hours of game play.
