

Why choose a Cleverboard4?

The Cleverboard4 is the **ultimate interactive whiteboard**. The latest touchscreen technology is integrated into the screen enabling it to be dual touch, including gesture control and allowing multiple users. Available in two sizes – 78" 16:10 and 87" 16:10, and including Sahara's educational software – CleverLynx with Wordwall, the Cleverboard4 has all the functions and features required for an interactive classroom. With dual optical technology and board designed for clear projection and easy writing the Cleverboard4 facilitates both finger and pen touch.

Optical Dual Touch Technology

The Cleverboard4 features a response time of less than 16 milliseconds, meaning that students can see results instantly. With Windows 7 and above the Cleverboard4 has a dual touch capability so that two users can work at the same time, using either a finger or a pen, with 4mm accuracy.

High Quality Board Surface

The vitreous enamel steel board makes the Cleverboard4 perfect for ease of writing, whilst the matt surface enables clear projection.

Long Lasting

The Cleverboard4 is the interactive whiteboard of the future, with the sleek, modern design created for contemporary classrooms. The strong board surface and long guarantee mean that the Cleverboard4 is built to stand the test of time.

CleverLynx with Wordwall Educational Software

Sahara CleverLynx features curriculum specific information and a wide range of interactive activities. CleverLynx now includes Wordwall which hosts over 25,000 pre-created lesson plans. The CleverLynx DVD is included with every board.

Comprehensive Warranty

There is no need to remove the board to make repairs on the Cleverboard4 as the top cover can be removed to allow repairs on-site. The five year warranty on components and twenty year warranty on the board surface** mean that Cleverboard4 is built to last.

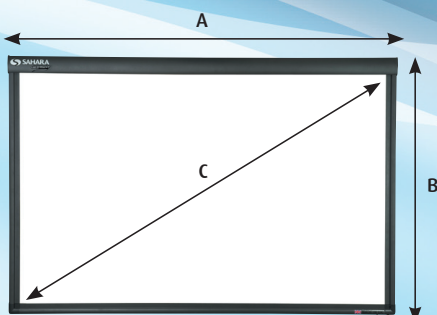

Connectivity

The Cleverboard4 comes with a 5MB USB data cable and has a USB outlet.

Accessories Included

- 5m USB cable
- Wall brackets
- CleverLynx with Wordwall

Size	A mm	B mm	C mm
78"	1790	1190	1981

* Windows 7 onwards

** excludes misuse

CleverLynx with Wordwall...

the ultimate education software for interactive devices.

- Construct fantastic activities for your classroom or use the 25,000 pre-created activities
- Annotation toolkit including pen, paintbrush, highlighting and area fill tools
- A wide variety of high definition maps, both simple and labelled, are provided
- Arrange, transform, fill and group objects
- Use the keyboard to write, align, rotate and transform text
- A variety of subject specific screen backdrops are available to enhance lessons including lined, graph, isometric, squared, hexagonal and music manuscript paper.
- There is something for all subjects with the image bank, encyclopaedia articles, and 40 dynamic wizards that come with Wordwall
- Screen Capture allows you to prepare and build lessons easily and also allows annotations and lessons to be saved for later discussions
- Internet access with a single button

Make the most of your Cleverboard with Sahara's family of interactive Cleverproducts.

Clevertab

The 19" Clevertab allows you to interact instantly with the Cleverboard. The digital pen allows users to control the interactive whiteboard, handwrite, annotate, draw and edit documents.

Cleverpad3

The teacher can be 10 metres from the PC and control up to 50 devices with the Cleverpad3, meaning they are free to move around and encourage students individually whilst still updating the Cleverboard.

Cleverclick

Up to 250 Cleverclick handsets can be used at once with Wordwall and PowerPoint to play quizzes, participate in tests, and have group votes.

Clevercam

The Clevercam range of document cameras have high quality 5MP image and video cameras. Connect them to your Cleverboard and PC to show images, text and moving objects to your whole class at once.
